

## EUROPEAN RESPIRATORY UPDATE

---

- 1 Rheumatoid arthritis-associated lung disease  
Megan Shaw, Bridget F. Collins, Lawrence A. Ho and Ganesh Raghu

## CLINICAL YEAR IN REVIEW

---

- 17 Nutritional advances in patients with respiratory diseases  
Annemie M.W.J. Schols
- 23 Advances in target therapy in lung cancer  
Jean-Paul Sculier, Thierry Berghmans and Anne-Pascale Meert
- 30 Advances in asthma pathophysiology: stepping forward from the Maurizio Vignola experience  
Maria R. Bonsignore, Mirella Profita, Rosalia Gagliardo, Loredana Riccobono, Giuseppina Chiappara, Elisabetta Pace and Mark Gjomarkaj

## REVIEWS

---

- 40 Targeted screening programmes in COPD: how to identify individuals with  $\alpha_1$ -antitrypsin deficiency  
Joanna Chorostowska-Wynimko
- 46 Long-term experience in the treatment of  $\alpha_1$ -antitrypsin deficiency: 25 years of augmentation therapy  
Helmut Teschler
- 52 Diagnosing  $\alpha_1$ -antitrypsin deficiency: how to improve the current algorithm  
Noel G. McElvaney
- 58 Long-term clinical and real-world experience with pirfenidone in the treatment of idiopathic pulmonary fibrosis  
Vincent Cottin and Toby Maher
- 65 The changing treatment landscape in idiopathic pulmonary fibrosis  
Ulrich Costabel
- 69 The multidisciplinary approach in the diagnosis of idiopathic pulmonary fibrosis: a patient case-based review  
Sara Tomassetti, Sara Piciocchi, Paola Tantalocco, Alessandra Dubini and Venerino Poletti
- 78 Host-microbe interactions in distal airways: relevance to chronic airway diseases  
Clémence Martin, Pierre-Régis Burgel, Patricia Lepage, Claire Andréjak, Jacques de Blic, Arnaud Bourdin, Jacques Brouard, Pascal Chanez, Jean-Charles Dalphin, Gaetan Deslée, Antoine Deschildre, Philippe Gosset, Lhousseine Touqui and Daniel Dusser
- 92 Volatile organic compounds and risk of asthma and allergy: a systematic review  
Ulugbek B. Nurmatov, Nara Tagiyeva, Sean Semple, Graham Devereux and Aziz Sheikh
- 102 Cellular interactions in the pathogenesis of interstitial lung diseases  
Gianluca Bagnato and Sergio Harari
- 115 Malignant pleural mesothelioma: history, controversy and future of a manmade epidemic  
Oluf Dimitri Røe and Giulia Maria Stella

## **SERIES**

---

- 132      SERIES: ACUTE RESPIRATORY DISTRESS SYNDROME  
         Edited by S. John Wort and Stefano Nava  
         Number 4 in the Series  
Recent advances in mechanical ventilation in patients with acute respiratory distress syndrome  
[Nuttapol Rittayamai](#) and [Laurent Brochard](#)
- 141      SERIES: ASTHMA  
         Edited by Pascal Chanez and Marc Humbert  
         Number 2 in the Series  
Innate immunity is a key factor for the resolution of inflammation in asthma  
[Cindy Barnig](#) and [Bruce D. Levy](#)

## **LETTER**

---

- 154      Pneumonectomy subjects with acute respiratory distress syndrome: what to do  
[Ramesh Unnikrishnan](#)

## **IMAGES IN RESPIRATORY MEDICINE**

---

- 155      Near-fatal haemoptysis as presentation of a giant intralobar pulmonary sequestration  
[Nancy Ferland](#), [Christian Couture](#) and [Steeve Provencher](#)
- 157      Book review
